

Cleanroom Tape

CLEANROOM CONSTRUCTION TAPE

- Material: Polyethylene with synthetic rubber adhesive
- Backing: White polyethylene
- Adhesive: Synthetic rubber
- Adhesion to steel: 66 N/100 mm
- Tensile strength: 315 N/100 mm
- Total thickness: 0.18 mm
- Elongation at break: 80%
- Optimum temperature range: 18 to 77 °C (65 to 170°F)
- Abrasion resistance: Good

OTHER CHARACTERISTICS

- Clean construction
- Easily bands different mediums
- Serrated edge for easy tear
- Aggressive adhesive
- Length: 32.92 m
